**Director:** Fred Western

A dining room is the heart of any home where meals are shared and stories are told. Join us for this glimpse into the dining room of a typical well-to-do household, the place where the family assembles daily for breakfast, dinner and special occasions. A humorous and compassionate series of overlapping vignettes introduces a new set of people and events in each scene – some touching, some funny, some contrite, but all interwoven around the significance and timelessness of the dining room table and exploring the vibrant relationships of family life.
