Eleven year old Harriet is a writer. She is also a spy! Every afternoon Harriet practices writing by following a spy route, observing her friends and neighbors, and writing about them in her trusty notebook. She writes down everything she sees, thinks, and feels about everyone...everything! When Harriet loses her notebook, it is found and read by her classmates, and her snooping is exposed. Harriet learns that her honest opinions have hurt her friendships and the feelings of her friends and neighbors. A heartfelt story about being true to yourself - *Harriet the Spy* is a sneaky family favorite with an important lesson.
